Accessories

Controls

B0999

Wireless control for radiators
When installed on existing radiators, it can be wirelessly connected to the heat pump air conditioner via the home wireless network. Controllable via the OS Home app, allowing for scenarios to be programmed that activate one of the two heating systems based on specific conditions. Compatible with the main valve bodies available on the market and easily replaceable with the existing manual valve or traditional thermostatic control already installed on the radiators.

B1029

Wireless thermostat
Wireless wall control with black and white display (wireless to Unico and equipped with OS Smart System app), complete with receiver to be installed on Unico. Battery operated. Equipped with temperature measurement.

B1030

IAQ wireless thermostat
Wireless colour wall control (wireless to Unico and equipped with OS Smart System app), complete with receiver to be installed on Unico. Mains powered, can be installed on 503 electrical box and on round box. Equipped with temperature, humidity and internal air quality measurement.

B1128

Relay wireless
To wirelessly control other generators or external electrical heating elements, based on the external temperature and the difference between the internal temperature and the set-point temperature.

B1015

Wireless kit
Wireless/bluetooth interface board to integrate connectivity into units when it is not present.

B1014

Wireless serial interface
Interface for receiving wireless commands (desired temperature, ventilation speed, air deflector operation and air change function) or via contacts (Cooling or Heating operating mode, ventilation speed). Presence sensor contact or Sleep mode. Alarm output in case of malfunction.

B1012

Wireless wall control
Battery-powered wall-mounted control for sending wireless commands (desired temperature, ventilation speed, air deflector operation).

Installation kit

B0984

Kit for preparing holes with a diameter of 200 mm
Kit for preparing holes with a diameter of 200 mm equipped with a pair of 200mm folding grids, a pair of 200mm internal flanges, a pair of universal PP sheets, templates for each compatible model (there are no support brackets, which are included in the machine packaging).

B0564

Grille kit diameter 160 mm
Pair of inside flanges Ø 160 mm, pair of outside folding grilles Ø 160 mm.

Installation kit

B0620 — **Heating cable**
To prevent the formation of ice in the condensation trap for drainage (heating cable already standard on Unico Vertical).

B0753 — **Rain cover kit for 200 mm grilles**
To be installed on the outside wall to protect the holes (for installations in extreme weather conditions). Designed for ø 200 mm grilles. This product is available by special order only. The packaging contains 2 elements (1 for each hole).

Recess kit

B0776 — **Recessed closing panel**
Designed to completely blend Unico Air into the building architecture.

B0775 — **Recessed formwork**
Supplied for quick installation of Unico Air, pre-drilled for product installation.

B1032 — **Wall recess kit**
Metal panel with delivery and extraction grille that can be used for built-in installations of Unico Vertical-NK.

B1033 — **Wall recess kit with HRV kit**
Metal panel with delivery and return air grille, that can be used for recessed installation of Unico Vertical-NK when combined with the HRV kit (B1031).

HRV kit

B1031 — **HRV kit**
Crossflow enthalpic heat recovery unit for air exchange, ducted extraction and delivery through Unico Vertical-NK delivery grille. Maximum flow rate at 100 Pa equal to 103 m3/h. Can be controlled in combination with Unico Vertical-NK from the Wireless IAQ control (code B1030).

B0998 — **Kit for 160mm grille for HRV installation**
Kit for holes with diameter 160 mm for HRV (code B1031) equipped with a pair of folding grilles d. 160mm, a pair of internal flanges d. 160mm, a pair of universal PP sheets.
