

EVAPORATIVE COOLERS

PELER 25 WIFI

Size	25
Operation without water	✓
Ionizer	✓
Wireless control	✓

Superior comfort

Ideal for medium-sized areas and outdoor spaces (such as verandas and patios), thanks to the 3 air inlets that ensure greater airflow and allow coverage of up to 13 metres. The air distributed into the room is also purified by the always-active ionisation (Plasma) function and, to prevent the formation of mould and bacteria, the evaporative panel is automatically dried by activating the Dry Air function.

Easy disassembly for reduced overall dimensions

During periods of non-use, it can be easily disassembled, inserting the upper part inside the tank, to reduce its overall dimensions.

-  **Evaporation (with water)**
-  **Ventilation (without water)**
-  **Dry Air**
-  **Natural Wind**
-  **Normal Wind**
-  **Grid oscillation**
-  **Sleep Wind**
-  **Timer**

(1) Test conditions: the sound pressure level was measured in a semi-anechoic chamber at a distance of 2 metre from the front of the unit, with the microphone positioned at a height of 1 metre. During measurement, all unit functions are enabled except oscillation (if present).
