Accessories

Controls

B0999	**Wireless control for radiators** When installed on existing radiators, it can be wirelessly connected to the heat pump air conditioner via the home wireless network. Controllable via the OS Home app, allowing for scenarios to be programmed that activate one of the two heating systems based on specific conditions. Compatible with the main valve bodies available on the market and easily replaceable with the existing manual valve or traditional thermostatic control already installed on the radiators.	*NEW*
B1234	**Wireless 4-wire wall control** Wall control with 4-wire connection for remote control and integration of wireless connectivity (OS Comfort app) in indoor units where it is not standard. In case of connection with wall indoor units for remote control, mandatory pairing with multifunction interface kit B1235.	*NEW*
B0969	**4-wire wall-mounted remote control** Wired wall control with 4-wire connection for remote control.	
B0970	**Wi-Fi disc kit** Disc containing a special USB stick for wireless connectivity integration (OS Comfort app). For wall/ceiling installation outside the internal unit.	
B1020	**Wireless split kit** USB stick for wireless connectivity integration (OS Comfort app).	
B1235	**Multifunction interface kit** Accessory required to enable the remote on-off contact and alarm contact functions on wall-mounted internal units.	*NEW*
